

CHALLENGES FACED BY DOE TO PREVENT PEATLAND FIRES AND HAZE

WHAT PUBLIC CAN DO TO PROTECT ENVIRONMENT AND PREVENT PEAT FIRES AND SMOKE HAZE

01

Do not do open burning

02

Put out small fire before the fire gets bigger

03

Zero burning practices in agriculture

04

Environmental friendly techniques – composting, mulching, etc

GOVERNMENT POLICIES TO STRENGTHEN ENFORCEMENT

NEW ENVIRONMENTAL QUALITY ACT

**New Act will be
stricter
requirement and
increase penalty on
open burning**

ESTABLISH NATIONAL ACTION PLAN ON OPEN BURNING

**This action plan has
been developed
and to be endorsed
by Cabinet
Members**

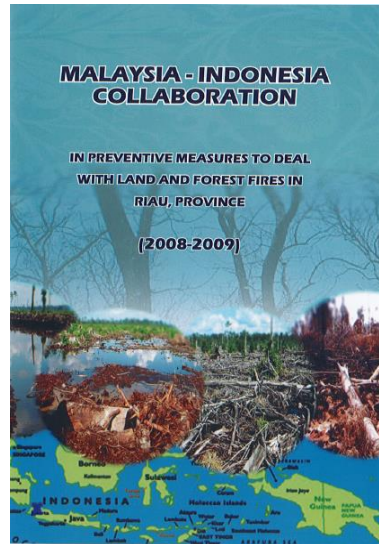

STRENGTHEN DOE AS ENFORCEMENT AGENCY

**Empowerment of
DOE by increase of
technical
capabilities and
resources**

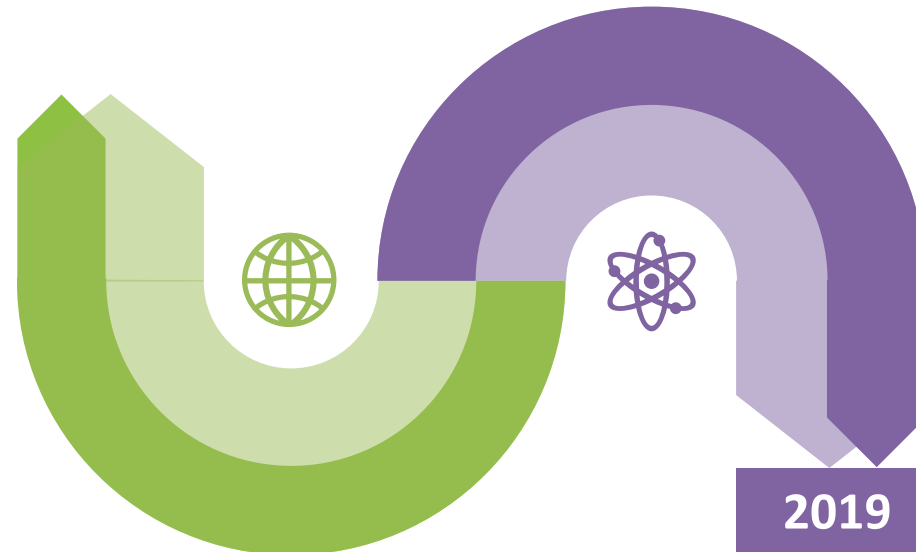

DOE'S COLLABORATION WITH GEC

2008 – 2009

Malaysia – Indonesia
Collaboration in Preventive
Measures to Deal With
Land and Forest Fires in
Riau Province, Indonesia

Training workshop on zero burning techniques for community leaders and farmers from Riau Province

RANCANGAN MALAYSIA KESEBELAS

2016-2020

PERTUMBUHAN BERPAKSIKAN RAKYAT

- 2019 : Impact Study on Fire and Haze Prevention Program in Peatland Areas
- Way forward : Master Plan for Peatland Management to Mitigate Fires and Haze
