ULU YAM RIVER REHABILITATION

Implementing Agency: Community based organisation Federasi Kolektif DIY Ampang

Stakeholders: Department of Irrigation and Drainage (DID), Institut Kemahiran Belia Negara, villagers in Ulu Yam, Majlis Perbandaran Kajang (MPKj)

Project Location: Ulu Yam, Kuala Lumpur.

Project Duration: Mar - July 2017

BACKGROUND

Ulu Yam River Rehabilitation is a project conducted by Federasi Kolektif DIY Ampang in efforts to raise awareness and educate visitors and government agencies about the importance of healthy and clean river. It focuses on conserving and maintaining the cleanliness of Ulu Yam River.

This project includes monthly river clean-up activities involving netizens' participation and targeted groups. Netizen participants are obtained through online announcements of this project through Federasi Kolektif DIY Ampang's facebook page. Hence, interested participants from any background are welcomed to volunteer in this project.

OBJECTIVES

The project aimsto conserve and protect Ulu Yam River; and raise awareness about the importance of clean river.

ACHIEVEMENTS

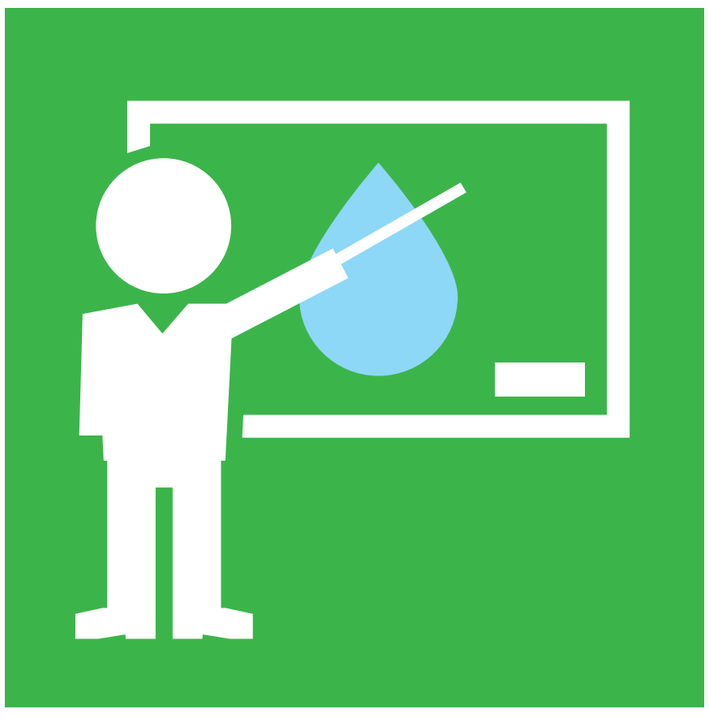

Monthly river clean-up of Ulu Yam River with netizens and other target groups;

River monitoring activities to raise awareness about the importance of clean river and educate visitors about keeping the river clean;

Awareness signboards are installed along Ulu Yam River to educate and increase awareness among visitors in keeping the rivers clean; and

Installation of rubbish trap to keep the river clean from rubbish.

SHARING EXPERIENCE

AWARENESS, EDUCATION AND ENGAGEMENT

Raising awareness and educational engagement are fundamental aspects to build stakeholders' understanding in order to manage and conserve the river. To propagate the relevant information among stakeholders, it is necessary for everyone to work together to develop and design the programmes to be conducted. Thus, it is important for stakeholders to be involved and engaged from design and development phases to implementing the activities.

For the achievements to last, it is important to have signboards installed along the river to remind visitors on keeping the river clean.
